

May 4, 1932.

Mr. A. B. Russell,
Ilion, N. Y.

Dear Mr. Russell:-

Thank you very much indeed for sending me the copy of your catalogue. I am pleased that you liked my photograph well enough to use it for a frontispiece, and I hope it will help to bring you further orders. Your cases are indeed beautiful ones, and from now on when I visit a Museum I shall not only look at the exhibits but at the cases as well.

I have just returned from a most interesting trip to Yucatan to photograph the ruins of Chichen Itza. The little Museum in Merida is sadly in need of your beautiful cases, as they have many valuable objects to display, but I doubt if they have the funds to procure them.

It is possible that I may be going east again next winter, and if there is anything you wish photographed along the way that you are not in a hurry about perhaps I could do them for you. I am most anxious to see the Folger Library. One of my best friends made the charming statue of Puck for the garden.

Thanking you for the catalogue, I am

Very truly yours,
