New York City.

Dear Mr. Whigham:-

The photographs of mine which were sent to you by Mrs. Hard have been received, and I note that you are using the two Polo pictures.

I want to take this opportunity to tell you that Mrs. Hard visited my studio during my absence and the photographs which were submitted to you were given to her by some one else. Had I been here, I would, of-course, seen that prints suitable for reproduction were sent to you. I had many other things here ~~which~~ were far more suitable for her article and I regretted that she was unable to await my return for a better selection.

In the future I hope I may have an opportunity to send you some prints where better represent my work.

Very truly yours,
