Mr. T.A. Willard,
617 Linden Drive,
Beverly Hills, Calif.

Dear Mr. Willard:-

It is a long time since your letter was written. I was down in the Navajo Country again, and just as I was due to start home, I came down with the "flu" and was held there for two weeks, and my mail was not forwarded to me.

Regarding the photographs for the Geographic, I am planning another use for them myself and I know from past experience that they will not be interested in anything that has been published elsewhere. I have been taking my time with this as I want them properly presented when they do appear. The whole series are being copyrighted and will be used in a future set of lantern slides.

I was interested to receive a notice of your new book and will look forward to seeing it when it appears.

Regretting that I cannot at this time release my prints for publication, I am

Sincerely yours,
