

May 18, 1932.

My dear Mrs. Willis,

A framed print has gone off to you today and I trust that it reaches you in perfect condition and that Roger and I have chosen one that both you and Barbara will want. If not please do not hesitate to tell me so and I will send something else and you can have it put in the frame. I also took the liberty of framing it as you said that you wished to have it framed. My Dad makes those nice frames for me and as I frame a good many for many people. I trust that you will approve.

As I know how both you and Barbara liked the well and as that was Rogers instant choice I hope that you will like it. It isn't the ruins in any sense Roger is to have one of those as a present though he doesn't know it. I hope that you will be agreeably surprised in the Sacred Well print. The proofs were so small and it is hard to visualize a finished result unless you are working on it yourself.

I am very hard at work trying to finish up my Southwest slides so that I can let loose so to speak on the Chichen things. I do hope that you come out this summer for I should love to show you the whole lot when they are finished.

The Browns, four others from the School and I are hard at work in a Spanish class and having lots of fun. Wish you were here to join us.

Hoping that you will find the print all that you wish, and with the best of wishes to you both I am

Very sincerely yours,
