

Ap. 29. 1932

Dear Miss Gilpin:

The enclosed print seems to have become injured in the mail. It was received this morning.

I need this in the worst way too for I have promised it to the "Association of American Colleges" New York for inclusion in their forthcoming year book.

I feel somewhat ashamed to forward them a print with so many scratches & one corner almost torn off & afraid it may lead to rejection.

I wonder if you could make two prints of this as I shall wish to have a spare one for the usual push request which always comes when unprepared. Could one be slightly darker than the other? I believe for an architectural presentation I should prefer a somewhat darker effect even more so than the mounted print you sent.

Please hold the prints as I shall be in Col. Spqr next week & can collect them personally.

Sincerely
John Gray
