May 3 1936

Dear Mrs. Gelpi:

I will be in Colo. Spgs on Friday
afternoon & hope to see you sometime then if
convenient. I expect to be engaged
at the building for about two hours taking
some measurements. so if you thought of trying
out the moonlight view then I would be available
to help with the lighting. Of course this
is so important that I will ultimately
make a special trip up any time you say
to take care of this

Yours sincerely
John C. Gelpi

P.S. I have another enquiry for photos from the
National Tube Co & particularly for this moonlight
view J.C.
