Dear Miss Gilpin:

I have just received all of your prints from the National Geographic except one of the sand dune photos. I was very much disappointed that they did not use them all, or nearly all, but as you say the National Geographic is very weak on pictorial work. I have never admired the style of pictures used by this magazine. They use so many photographs that they cannot miss using a few good ones, but they seem to be looking for record human interest pictures more than anything else.

I will bring your prints down with me as soon as I come which I hope will be in the near future. I am just trying to get rid of our routine spring work now.

Cordially yours,

THE COLORADO ASSOCIATION
