My dear Laura:

I am returning herewith proofs of four of the pictures which you sent. It was awfully hard to choose between so many really fine portrates of Frances. I could have easily selected another half dozen negatives.

Of the four negatives selected I wish a total of six prints made. You will find on the back of each the number of finished pictures I want from each. Two of this four are to have two finished pictures each, and the remaining two one picture each.

Again congratulating you on having made so many good portraits of Frances, and advising you that we will be here until the day after Christmas, I close,

Very cordially yours,

SGM:EMB
