

FREDERIC A. DELANO

407 HIBBS BUILDING
WASHINGTON, D. C.

350 MADISON AVENUE
NEW YORK CITY

I wrote him immediately saying I was
sending you this letter, & telling Dr. Morley
he could see samples of your work at the
L. J. C.

Washington, D.C.,
June 13, 1932.

How we'd love to see you - & have you
see our first "house." E. is hanging these
pictures in his new gallery. Love Shirl

My dear Mrs. O'Hara:

At the suggestion of Mrs. Delano, I am writing you in regard to
some photographs made by Miss Laura Gilpin, 317 Cheyenne Road, Colorado
Springs, Colorado, ~~in~~ Yucatan. I spoke to Dr. Merriam about these pho-
tographs just before he left for the West in the latter part of May.
I have since talked with Dr. Sylvanus G. Morley who is here from Yucatan.
Both said they were sure that the Carnegie Institution would be glad to
have some of the photographs taken by Miss Gilpin. Dr. Morley is at the
Cosmos Club for this week only, and if you have any of the photographs
where he could see them, he could leave word at the Carnegie Institution
offices what his judgment of them is. I am somewhat in the dark, because
I know nothing about the size of the photographs, how many there are,
whether they are intended for book illustrations or for lantern slides, or
both. I am simply transmitting the information that I have obtained in
response to my inquiries.

Yours very sincerely,

Mrs. Eliot O'Hara,
2025 O Street,
Washington, D.C.

Frederic A. Delano

Mr. Delano may be honorary pres. of
the Foundation. He's certainly important in it,
but I can't ask him point blank for his title.
