Dear Madam:

Sometime the latter part of August, as I remember it, about August 19, I sent you two proof's of pictures which you had taken of me. I had talked to you long distance on the phone about these and I had marked the proofs where I wanted them re-touched. I also wrote on the back of each proof how many I wanted.

I have heard nothing from you about this and am wondering if you received the proofs O.K. and how much longer it will be before I receive the prints.

I will certainly appreciate your prompt attention to this, as I am rather anxious to get the pictures.

Very truly yours,

Mrs. S. W. Sinsheimer
