BEVERLY HILLS

July 27-32.

Dear Miss Gilpin:

I wont need the photo of the Altar now as it is public property and I have three photos,

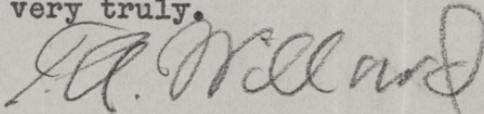

It was not very fair to you for Mr Morley to hold you up on them when others were making the same thing. However he no doubt thought that he was keeping it from me, which was also unfair to both of us.

Chichen-Itza is an open book and noone has the right to withhold things of this kind, If it was carrying away stones or making casts it would be a different matter, this is forbidden by the Mexican Government, but as to the making of Photos they are verycourteous about such things and allow photographers to make all they desire.

If at any time you feel free to send me a photo you can let me know first and if I need a photo for any purpose I will advise you.

Thanking you fir the excellent photos that you did make, I am

Yours very truly,

By the way, if you see Prof Brown ask him if he wants my copy of Landa in english to copy, He did not answer my letter. and if he does to advise me at once.
