Miss Laura Gilman,
Broadmoor,
Colorado Springs, Colorado.

Dear Miss Gilman:

I have talked with Dr. Clark Wissler, our Curator of Anthropology, and with Director Sherwood about your beautiful photographs of the Southwest and of the Maya country. I am wondering whether you would be interested to have an exhibit of your photographic enlargements in the large Education Hall of the American Museum of Natural History where they would be seen by thousands of people. It is true that we have many more requests for the privilege of exhibiting material in this hall than we are able to accommodate, but I thought that your photographs were so beautiful, outstandingly so, that personally I should like to see an exhibition of them here for a period of a few weeks. Dr. Wissler would be interested in those of archaeological or anthropological significance.

If you are interested in this please let me know and I shall determine whether it can be arranged.

Sincerely yours,

Clyde Fisher
Curator
