

North Haven, Maine

July 19th - '33

Laurie Dearest:

Just a brief greeting to you from the Maine coast. I've no idea where you are or what you may be up to - (Central City - or is that all over now?) - but I do so wish you were here. Golly, but you'd love it!

We haven't put the "Olga" into the water this summer, as neither Dad nor I can stay more than a month, and so we just have a little open motor-boat to cling about in. And it's a great relief to me not to be attempting cruises, etc., + also not to have Dad

tugging & straining at the "Olga's"
heavy sails & anchor.

We find plenty to do just
puttering about here, &
I have even more resources
than Dad, for I love picking
potato-bugs & drowning
em in kerosene - weeding
the garden - feeding the
chickens - & all that sort
of thing. Not to speak of
just plain walking.

Shirley, Eliot & the children
are, of course, at Goose Rocks
Beach, where E. has a class
of 18 to start the summer.
Pretty good, eh? We'll be
stopping off there on our way
home, around Aug 12th, &
also a day or two in Cambridge
to see Aunt Carl Worcester who's
been very ill. But probably
back in N.Y. by the 20th!

Drop a fellow a line once

in a while? I keep looking forward to January.
Love you Brendie
