Dear Laura:

I have seen your letter of the 22nd, answering some questions which went to you from 2025 O Street; and have immediately telegraphed you as follows:

"We should certainly value an exhibit of the Yucatan and at least a selection of the Southwest prints here. Please advise if, when, and how it could be arranged for."

An incidental advantage of the exhibit would, I hope, be to enable us to select certain items which the Library would wish to acquire for its own collections.

With keen interest,

Cordially yours,

Lewis Sullivan
