MRL
OFFICE OF THE LIBRARIAN

April 10 1934

My dear Miss Gilpin:

Your note of the 3rd reached me duly, but I have delayed my response until I could consider the prospect with Dr. Holland. Unless we hear from you that you have some plans for the exhibit which would conflict, we should like to retain it through April. You will have time to consider what you would wish us to do with it then.

We should wish to hold the prints a few days after taking them out of the cases in order that Dr. Holland may make a selection for purchase for our own collections, which cannot be so conveniently done during the exhibit. He thinks (and so do I) that we should wish to secure most of the Yucatan, together with a selection of those of the Southwest not yet represented here in our permanent group.

Very sincerely yours,

Librarian
