OFFICE OF THE LIBRARIAN

May 16 1934

My dear Miss Gilpin:

The prints having now been taken down, Dr. Holland has had a chance to make a selection of those that he would recommend for our retention. They constitute 36 out of the 57 of the photographs of Chichen Itza and six of the Southwest series to supplement examples already in our possession.

At the prices listed, the thirty-six of the Yucatan would appear to come to \$455 and the six of the Southwest to \$65. I am authorizing the purchase of the entire forty-two. The preparation of the voucher awaits only any suggestion that may occur to you after receipt of this note.

Pending the possibility of it, we are still holding the balance of the items.

Very sincerely yours,

Librarian

Miss Laura Gilpin
