IRON CHLORIDE	PASTES

Miss Laura Gilpin,
317 Cheyenne Road,
Colorado Springs, Colo.

Dear Miss Gilpin:

You will have received a letter from William Zinsser & Company advising you that your order was turned over to us to be filled. We have taken the liberty of shipping you promptly a five pound tin of Powdered Asphaltum --- our smallest container of this material --- and hope you will have no objection. The cost of repacking would make three pounds as expensive as five.

Many thanks for your patronage; call upon us for any of your chemical requirements.

Yours very truly,
SELDNER & ENEQUIST, Inc.
