

Nov. 28, 1936.

My Chauncey J. Hamlin,
Buffalo Museum of Science,
Humbolt Park,
Buffalo, N.Y.

My dear Mr. Hamlin:-

Thank you for your letter which came this morning. Mrs. Hare had told me that you had decided about the slides, and I sent them to you last week. They must have arrived shortly after your letter was written.

I am very pleased that you wish to add this set to those you told me about in connection with your Museum. I shall be interested to hear how they are received by your audiences, if you would be so kind as to let me know.

The Yucatan prints are home again, and I can send them to you when ever you wish. California has not yet set a definite date and if you wish them first you may have them. The prints were framed here only for local use, as the hall where they were hung makes frames a necessity. Generally they are shown on walls where they can have a glass over them without the frames.

Unless I hear from you to the contrary, the prints will be shipped to reach you about January 22nd or 23rd.

It was a great pleasure to meet you,
and I hope that at a not too distant date,
I may have the pleasure of seeing your
Museum and its activities.

With kind regards, I am

Cordially
