Dear Mr. Davey:

Your letter came just after I left for a trip to Albuquerque, and I only returned Sunday evening.

Here is a set of proofs of your frescoes. Some of them are not satisfactory yet, but they will do for your purpose for the explanation. As you see, I did not space them correctly, as I had great difficulty in seeing my ground glass clearly, and I am doing them over again this week. The north wall is extremely difficult, and I will try it by a different lighting procedure.

Trusting that these will serve your purpose at the moment, I am

Sincerely yours,
