Miss Laura Gilpin,
317 Cheyenne Road,
Colorado Springs, Colo.

Dear Miss Gilpin:-

In a moment of weakness I promised to give the annual Phi Beta Kappa talk here at the university and chose as my subject the Castillo at Chichen. While Phi Beta Kappa is rather a high-brow outfit to entertain with a full run of slides, I do feel that a few presented at the close would implant a memory such as words alone could never do. In view of this, would you loan me for the occasion your slides of the Castillo? I would of course, expect to pay mailing charges both ways and to be responsible for any damage in shipment or use. If you can oblige me in this matter, I would appreciate it if you would send the slides soon or if you have use for them in the meantime, let me have a list of the views. Either would enable me to grub around among my own meager material to see what I can find toward rounding out a presentation.

June 2nd.

This is a lot to ask, I know, but it would help me out tremendously. Remember me to Miss Foster when you see her. Ann joins me in the best of wishes.

Sincerely yours,

Carl H. Morris
