SANTA FE, NEW MEXICO

February 21, 1938

Dear Laura:-

The photographs have arrived and are hung and look very grand.

Do these, by any chance, happen to be those that were shown at the Laboratory? or any part of the group that were shown? Somebody was in here and said they thought they had seen some of them at the Lab. It really does not matter, but should like to know. I was away so much last summer and fall that have not kept track of the exhibitions.

I shall keep these on exhibition until March 15th, unless you want them before that time and thank you very much indeed for letting me have them.

Sincerely,

Mary R. Van Stone

Curator of Art Museum
