

April 10, 1939.

Mr. William Allen,
Fisk University,
Nashville, Tenn.

Dear Mr. Fisk:-

It is good news to know that Mr. Petri is returning to this country and you may rely on me to do all in my power to secure an engagement here.

The four prints you requested will go forward to Mr. Gaines to-morrow, and with this mail I am sending you nine proofs for your selection. Two of these are fadable proofs, the rest are fixed. I will be glad to make any that you may require. If you will advise about how many prints you will need, I will make you the best price I can on them.

May I enquire if you have yet prepared a window card or poster? As I have done a lot of work along this line, I should be glad of the opportunity to present a proof to you for your consideration, if you will send me the necessary wording. Also in regard to a folder. I have a printer here who does excellent work and co-operates with me to a great extent, with the result that I do a considerable amount of work in designing school catalogues etc. for which I contract not only the photography but the printing and book design as well, and this gives me the opportunity to see that my photographs are reproduced the best possible advantage.

Mr. Petri has had many friends in Colorado Springs and I sincerely hope that we may have a concert by him while he is in this country.

Thanking you for your enquiry
