

Nov. 14, 1939.

Mrs. George Cranmer,
200 Cherry St.,
Denver, Colorado.

Dear Mrs. Cranmer:-

You may already know that Egon Petri is back in this country and is having a tour a little later in the winter. I am making the pictures to used in his publicity and have been in correspondence with his manager. He will be in South Dakota in January and then will come on down here. If we can get three concerts in this vicinity he will play for a greatly reduced rate. The letter quoting this rate is in the hands of our committee at the Art Center, but as I remember it was \$250. He will be coming to visit the Powers' and it seems to me that we must arrange these concerts. Mrs. Simms said last spring that she would be delighted to sponsor a concert in Albuquerque. At that time Mr. Petri expected to be here in November. He has a summer place in Poland and they had to fee in August. I have heard no details about their experiences, but I did have a personal letter from him day before yesterday telling me of his new program of dates.

Is it too late to do anything in the way of a concert with the Symphony in Denver?

At your convenience will you let me know what you could do in the way of a concert either with or without the symphony?

It seems a long time since I have seen you. Life seems to have kept me very much at home during the past few years, or else at work in New Mexico.

With kindest regards to both yourself and Mr. Granmer, I am

Most sincerely yours,
