Dear Miss Wallace:--

In checking over my accounts I find a variance in the amounts of the checks for the books. There seem to be several items of 50 booklets at \$17.50 and August, 1938 \$18.75.

It is doubtless a mistake in my own mind and I am not sure at all when the percentage was changed to 30% as the original discount when the books were reduced was to be 25%. However, in view of the fact that everything is moving so slowly this year we will hereafter definitely place the amount at the 30% you request. I am sorry that I have been confused on this matter.

I enclose a corrected statement. I hope that the tourist travel has been better your way than here, and the hope that it may pick up this month.

Very truly yours,
