ROLAND F. BEERS, President

Miss Laura Gilpin
Colorado Springs, Colo.

Dear Miss Gilpin:

I should have written sooner, however in getting down to real business I find most of my pictures are just vacation snapshots after all. I am sure I can finish a few however within the next two or three weeks, to send you for criticism. You realize of course that I work in an office all day, usually six days a week.

I have talked with Mr. Gambrell, director of the Hall of State Museum, here, and he is very enthusiastic about your exhibit here. He will clear one entire room, which I believe will accomodate eighty prints, and would like to have your show for thirty days. He hesitates to clear the room for a show of less than thirty days' duration. A local "salon" will be held during February, and I am wondering if we might have your prints for the entire month of January, or just as soon after Jan. 1st as possible. Prints will be displayed under glass. Please advise as to the approximate date (or exact date if possible) that we may expect your prints, in order that proper preparation can be made.

I have made inquiry regarding a lecture tour, and so far I have been unable to find enough people vitally interested in photography for such a project. The majority of people are not interested to such an extent, however I haven't given up hope. Have you any idea as to the expense involved?

I enjoyed my afternoon and morning with you, and hope that I may have such an opportunity again. Perhaps some day when I can so arrange my finances I'll purchase a view camera and visit you again. My employer, Mr. Beers, is now endeavoring to interest me in view cameras, also.

Sincerely,

Adelle Herring

h

Miss Adelle Herring
