Dear Laura:

I have just received a letter from Mr. Alsberg, national director of the Federal Writers' Project in Washington, telling me that he has but a single comment to make regarding your photographs: "they are splendid". He goes on to say that he hopes many of them can be used both for the New Mexico State Guide and Indians of New Mexico - Past and Present, a publication for next year. He also says that he would like to use your "Navaho Madonna" for publicity purposes. Would you be willing to have him do this? The picture will be used in the New Mexico State Guide, of course.

Please let me know by wire collect if you do not wish to have this carried out.

When are you coming to Santa Fe? I can promise you a better bed than last time.

Best greetings.

Sincerely yours

AILEEN NUSBAUM
