Miss Laura Gilpin

317 Cheyenne Road

Colorado Springs, Colorado

Dear Miss Gilpin:

The sample of "Charing" paper which you sent me has been tested by Mr. Black, the chemist at the paper mill here. He reports that it is 100 per cent rag, is glue-sized, and contains no rosin.

Therefore, if you consider "Charing" paper the most satisfactory, it will be all right, from my standpoint, to use it.

Sincerely yours,

W. A. Cowan
