Dear Miss Gilpin:

Regarding the type for the album, I think the big type under the print which you sent me kills the print in a way.

The enclosed sample is better, it seems to me. My thought is that the smaller type shown in this sample could be used for the long articles — such as the ones about John Cowles, Doctor Edwin Weed Cowles, and the Reverend Giles Hooker Cowles. I am sending you herewith copies of the aforementioned articles, so that you can see what they are and determine how best they can be handled. *It may be they should run on the pages back of the photos, except for starting under a photo in some cases.* I hope you are not extending your hours of work so as to exhaust yourself.

Sincerely yours,

*W. H. Cowles.*

P. S. I shall also have a medium long article on Edwin Cowles, a shorter one on Pyncheon, and one on the daughters of Giles Hooker Cowles.
