Miss Laura Gilpin
317 Cheyenne Road
Colorado Springs, Colorado

Dear Miss Gilpin:

We have been advised that you have secured photographs showing various phases of the work at the Carlton Tunnel near Cripple Creek, and will be very much interested in any photograph, or photographs, which you may have taken showing the Eimco-Finlay Loader in operation at the face of the tunnel.

If you have taken any such photographs please send us prints as soon as possible, together with a statement of your charges for furnishing additional prints, or preferably for furnishing us with the original negatives.

Very truly yours,

THE EIMCO CORPORATION
