Miss Laura Gilpin
317 Cheyenne Road
Colorado Springs, Colorado

Dear Miss Gilpin:

Since writing you on January 9th we received the enclosed prints of your Carlton Tunnel photographs, but are unable to use them for any purpose now in prospect. We may be able to use some of these at some future time and if so will get in touch with you regarding another set of prints.

If you have not already replied to our letter of January 9th we hope you will do so at once as we wish to make other arrangements for securing photographs of the loader at the working face if you have decided not to undertake the work on the terms specified in our letter.

Very truly yours,

THE EIMCO CORPORATION
