The American Platinum Works,
Newark, N.J.

Dear Sirs:-

Will you kindly send me a quotation on Potassium Chloroplatinite. I shall want one ounce in the near future and may be more later. Please note that it is "ite" that I want.

Can you tell me where I can send old scraps of platinum prints to be recovered. I have scraps and waste prints of some ten years accumulation that I should like to send to you if you do this work.

Very truly yours,
