

March 26, 1940.

The American Platinum Works,
Newark, N.J.

Dear Sirs:-

Your letter of March 12th quoted me Potassium Chloroplatinite (K_2PtCl_4) @ \$24.15 per oz. Avd. Enclosed please find my check for this amount. I will need more in a little while and just as soon as I find out how far one oz. will go, I will send you a further order.

In the next few days I will ship you a sack of old platinum scraps for refining which you can place to my credit on a future order.

Very truly yours,
