

July 16, 1940.

My dear Mr. Cowles:-

Herewith are enclosed the copies of the items in Mrs. Stewart's Albums which you requested, namely the Cowles Genealogy, the John Cowles Memorial Inscription, and the Hutchinson Genealogy. These are exact copass out of her books. The Cowles Genealogy needs a lot of additions, both to the 8th generation and the addition entirely of the 9th generation.

Enclosed also are some proofs which you will want to insert in your dummy. A list of them is enclosed with them. I am making another copy of the photograph of Bob so that I may return both this one and the group of the four boys and families to him while he is here.

Another enclosure is a letter sent me from the paper company which will interest ~~you~~ you. If it is not too much bother would you return this, as I should like to have it on file. Also I enclose some samples of domestic leather and cloth sent on by the binder. You may find something here to your liking.

The printing is coming along in good shape. All of Sections I, II, & III will be finished by the end of the week. I am putting in about ten hours a day and hope that I will have no interruptions until the work is completed. It is going well and I hate to be stopped.

I am preparing now the captions for all of these first three sections. I shall send these on to you in the next few days and as soon as you add any additional information you wish to these I will proceed with the type setting so that we may get at the printing of these sections very soon.

With kindest regards, I am

Sincerely yours,
