

June 25, 1940.

Dr. Clyde Fisher,
The Hayden Planetarium,
Central Park West, at 79th St.,
New York City.

Dear Dr. Fisher:

It was extremely nice of you to send me your congratulations on the Yucatan pictures in the magazine. I am always very pleased indeed to hear from you. I think the reproductions were excellent and I was very happy to have them in your magazine, particularly as the first important showing of the original prints was through you at the Museum.

In the same mail with your letter came one from my friend Brenda Putnam, who told me she had gone back to speak to you at the Planetarium. She is a sculptor of note, the daughter of the former Librarian of Congress, Herbert Putnam, and a person to whom I think you would enjoy talking. I hope that you two will meet up again.

Thanking you again for your kind note, I am,

Very truly yours,

LG/L
