Dear Miss Gilpin:

Thank you ever so much
for sending the pictures. They are de-
lightful and they will certainly be
used in U. S. Camera.

Furthermore, I would
like to talk to you about a book,
though not with any commitments. I
have always been a great admirer of
your work and I hope that one out of
four Lens League books can be a woman
photographer's.

Won't you write me
about your other material? I think it
should be more of an Indian book, pos-
sibly breaking down into four separate
sections if you have them to offer.

Will you forgive me
if I am late in running some of this
material in the magazine? We are usually
two or three issues ahead and that means
four to six months.

Cordially,

T. J. Maloney
