Colorado Springs, Colorado

Dear Miss Gilpin,

I hasten to acknowledge your kind letter and tell you how delighted we are to schedule the publication of these superbly beautiful photographs of yours in the June issue of NATURAL HISTORY Magazine.

In line with your offer to make glossy prints, I am enclosing your list of the photographs with the fifteen titles checked which we would like to use.

Our check in payment for the privilege of reproducing these photographs will be sent to you within a few days. The prints will also be returned after we are through with them.

Needless to say the sooner we get the prints, the better. If you could ship them by the middle of next week, as you anticipate, we should be greatly pleased.

I do not believe the public has ever seen such a fine display on this subject as we can make of these pictures, and I am more grateful for this opportunity than I can say.

Cordially yours,

Edward M. Weyer
