Colorado Springs
Colorado

Dear Miss Gilpin:

We are delighted to learn what progress you are making with your material on the Southwest and look forward with great interest to seeing it. I notice that you mention the Indian Pictures Exhibit at the Museum of Modern Art and the fact that some of them are to appear in the U.S. Camera Magazine this spring. We are tremendously interested in pictures of Indians. In fact, next week we shall publish a book on ARIZONA INDIANS by Joseph Miller. An advance complimentary copy of which we shall send you in a few days.

If you have enough material to make a book which would not conflict with the ARIZONA INDIANS book, we should be delighted to discuss the matter with you. We are tremendously enthusiastic about your photographs of the Indians and believe that if you have enough material, it would be depriving the public not to put them in book form.

Cordially yours,

HASTINGS HOUSE
