setting up a modest household
somewhere — and preferably in
Colo. Springs which appeals in its
own right & also for the practical
reason that any house I rented I
might at times sublet, in order to
get away for a change.

I'd like a house with 2 or 3

Dear Laura: This may find you
far away from The Springs, but
there's no hurry about the thing I
want you to do for me if you can.

I'm resigning — have "given notice"
that I want to be free by next
June. My spirits soar at the mere
thought of it, tho' I slow up ~~at~~
but as I remind myself that what
the future will hold for any of
us is a big question. The fact

And how I love a view! If I could find one or two people to live with me, I could pay \$50 rent; otherwise it should be less.

If you could keep your eyes & ears open & help me find something, or get some real estate office to write me as to possibilities, & as to rent scales, I'd be very grateful. I'm really much too early to be bringing up the subject, except that with your many contacts you might know someone who would like to rent by the summer. Next spring is the time I really ought to get down to business, & of course I could run out for a day or two when it came to the point of making a decision.

I've loved my work here, but am weary of it! — and there are loads of things I'd like to do once I'm out of this harness.

I'll be hoping to hear from you someday.
Love from
