Dear Mr. Loban,

To-day I have sent at your direction a glossy print of the Temple of the Three Lintels at Chichen Itza Yucatan. As you did not indicate in any way which of the ruins you wished, I have selected this, first because it is pure Mayan, which many of the later ruins are not, and next as it is one of the best of my series. As there are some 52 prints in my set of Chichen, I have no idea which you may have seen or have reference to. If you wish any change made, please notify me at once, and I shall send something else.

Very truly yours,
