Dear Mr. Morgan :-

Thank you very much for your prompt reply to my letter and for the order for the two Kodachromes.

Thank you also for your good advise about agents etc. I shall write to Mr. Nesmith and am awaiting the outcome of a speculative assignment from the Free Lance Guild which I sent in a sort time ago.

When you are through with the Kodachromes will it be possible to obtain the transparencies again? I find the making of duplicates is very unsatisfactory and I have been building up a collection for projection. I have heard of some buyers who are quite willing to return the originals after they have been used.

I was interested to see one of the Archaeological prints in this last issue of the Complete Photographer, a good reproduction.

With best wishes, I am

Sincerely yours,
