

Dec. 23, 1941.

Mr. Willard D. Morgan,
National Educational Alliance,
New York City.

Dear Mr. Morgan:-

I have just had an urgent request for some Southwest color shots for the National Picture Book, a Government publication like the State Guide Books. They have decided to add a color supplement will be all Southwest. If you are through with my Mesa Verde slide I should like very much to offer this to them if it is agreeable to you. If so would you communicate direct with Mr. Joseph I Miller,

State Supervisor
Arizona Writer's Project
626 Washington St.
Phoenix, Arizona.

You can send the slide direct to him if you are willing and if publication times do not interfere. I imagine that it will still be some time before this book is out as it is being done in Spanish and Portuguese for South America. I only have one or two other Southwest subjects, and as this Mesa Verde one is far and away the best I should like to have it used.

More delays on my book which will not appear now until January. But what is one book more or less at the moment?

Best wishes,
