New York City.

Dear Sirs:-

Large additions to the books upon which I have been working using Rives Ivory paper, are making it necessary to have more paper. I am wondering if such a thing is possible. I will need 100 sheets and I am hoping that you may still have some on hand. Also will you let me know what tissues suitable for interpage sheets to match the Rives you have now obtainable.

If you will let me know immediately I will send shipping instructions.

Very truly yours,
