

AUGUST 30, 1941

Friday

Dear Miss Gilpin,

I looked for you at Ceremonial but there was no sign of you. Hope you will be at the Window Rock Fair. Remember there is always room for you here when you are in this country.

We have been selling so many rugs that we are having a hard time filling new orders. I feel like the man who said, "I had to quit handling it. It sold so fast I couldn't keep it in stock." So if Miss Forster has any rugs she is having trouble selling maybe she would send them back to us. But she is perfectly welcome to keep any or all she wants to.

Sometime I wish you would take a picture of Bill for me. But I don't know when that would be. He is in the Navy now, stationed at San Diego. He has been given the command of the gate vessel there which we hope means that he will not be transferred anywhere else. I go over to see him every time I can get away from here.

Mr. and Mrs. Brown from the Fountain Valley School were here yesterday.

I have been reading histories of the Southwest lately. Are you any relation to Govern-

or Gilpin who was governor of Colorado when Kit Carson was living?

Sincerely

Saeie Lippincott
