

Saturday Nov. 15, 41

Dearest Sam,

Yesterday all was set and decided that we would move the work down to the School next Sat. Nov. 22. and I was just about to

write you to get yourself ready to come. But last night a telephone came from Las Vegas, from the man who is to do the moving and who is also working on a Gov. job. that the Gov. had just told him that he has to work next Sat. But that he can get off this Monday the 17th. So there is no time for anything here. We have to move this Monday. The first thing to accomplish is to get all the ~~stages~~ down to the School, before there are any more Gov. regulations etc.

Mr. Pettis the one who is doing the moving, and the one who will set up the work, will be free to work again at the School on Thanksgiving. So perhaps we will all be working down there. But God knows! You must be with us to take photos while we are setting it up etc. But the present plan is to move

I shall write you again - we shall tell you how we are progressing.
We are starting the trucking Monday Nov. 17

this Monday. We can not every buy
excesses in this town! Does not fish! Fortunately
we have food enough in this old place, under the
roof, in boxes etc.

I am going to enclose my check for \$15 which
may be useful to you in getting down here. Come
down as soon as you can, stay with us, as long
as convenient etc. in that way we can keep track of
dates, and you can accomplish other work as you
suggested in your letter. Dates change at such
a rate that I do not know how else to write you.
This condition is not caused by any of us concerned!
But Mr Pettis whom we need is working on a
job for the Gov. and he has to do the best he can. He
is supposed to have Sat. + Sunday off. But a Government
inspector often tells him he has to work Sat. but
gives him some other day off.

Ruth Sims includes in this erratic condition.
Since I last wrote you she fell, was in the hospital
10s just out and about again. She was unable to go
to Calif. But for a note which I received from her
the other day. She is O.K now. This must catch the
mail. The weather is divine now.
