New York

Dear Laura

I need in a hurry.

a photo of me for reproduction purposes. Could you send me by return air mail three glossy copies of the three quarter view one you took of me - the same one that was used in the March issue of the Magazine of Art which contains the article on the Santos.

If you find that you cannot send these photos at once please let me know by air mail. for I have to find another way of getting a good photo of me - the printers are waiting and cursing & please send me the bill with them.

We are now in the country, and that is one reason for the confusion of our
us -

It has been a rotten winter.
Frances' health has been up
and down and has added to the
strain - I have been very
busy - and this coming year I
will be busier. Besides classes
I will conduct at the art Students
League and Cooper Union - I am
scheduled to fly to the Chicago
art Institute once a month
for two days to direct a new
department of mural painting.

- Goddam the souls of
Hitler and Mussolini - More
than ever now, I feel that
it is left for us in this
country to crush them.

I trust that you are
well and yourself again.

Frances and the children join
me in sending you our love
as ever
Eino

Thursday.
