Greetings

Dear Mrs. Gilpin:

Since the establishment of government regulations on loans so many people ask, "Can we still borrow money from your Bank?" The answer is, "Yes". We can provide the extra funds you may need to meet emergencies or other requirements. We have adhered strictly to the standards of our National Association, consequently the new government credit regulations have actually caused very little change in our Loan policy.

With Christmas fast approaching, you are assured of money for your Christmas needs. If at this time you require additional funds for any legitimate purpose - Christmas gifts, to purchase, refinance or repair a car, for household equipment, or desire to combine existing obligations of any sort whether these are present instalment contracts or open accounts, we can refinance into a single loan and in many instances give you additional cash besides. Often, if you prefer, a new loan can be granted without disturbing your present contract.

So don't hesitate to drop in and discuss your money problems. We are still in a position to help.

Wishing you a Merry Christmas, we are,

Very truly yours,

COLORADO SPRINGS INDUSTRIAL BANK

Wm. H. Hays

President

OEMcI:MW

P. S. Start the New Year right. Rent a safe deposit box in our vaults, where your valuables will always be safe from loss. Rentals start at \$2.00 per annum, plus tax.
