New York City.

Dear Mr. Bennett:-

War activities are beginning to hum out this way and in a few week Camp Carson will be finished. Is it possible for me to get a press card or some sort of credential from you so that I may have access to a great deal of material that might be very saleable. Only photographers with such credentials are permitted inside the Army area. There will be much to do which I should like to send in to you in a short time. I would greatly appreciate this as quickly as possible.

I hope also, that you may have another assignment of some sort for me out here soon.

Very truly yours,
