

June 19, 1942.

Miss M.E. Bradley,
U.S. Camera Publishing Corp.
122 East 42nd St.,
New York City.

Dear Miss Bradley:-

Enclosed please find the information regarding the picture "Desert Landscape" as you have designated. I am not quite certain as to the identity of this picture as I think its name should be "Desert Butte". Is it a big cumulus cloud above a desert butte with a light desert foreground? I am fairly certain that this is the picture that you would be using, and have enclosed the information regarding this shot. If I am wrong can you give me a description of it? I cannot seem to find a list of things sent you which has this on it. I am in the throws of moving and many things are at the moment misplaced. I am setting up shop in town for several reasons and hope to be all in order in another week. My new address will be 326 N. Tejon St., Colorado Springs.

Some time ago I wrote to Mr. Maloney about getting a press card. This was just about the time that he went in to the Navy and he quite understandingly over looked it. Things are beginning to hum here in the military way and there will be many things I can do if I have a card. Can I obtain such a thing from you and if not from you, can you tell me how I can get one? Camp Carson is supposed to be officially open July 15th though the arrival of several units is already under way. Then we have the photographic Reconnaissance School branch of the Air Arm building at the moment. I should like very much to have what credentials I may have in order to get whatever material will be allowed.

The photograph if myself enclosed herewith is ten years old, but is all I have. I shall try to get something new and send it on to you in case there is a little time. I ought to have it anyway.

Trusting that I have sent you the right information and that there is no mix up on my part in identifying the picture which you are going to use, I am

Very truly yours,
