

The DRAKE

440 Park Avenue

New York

2

Dear Laura:

Just a word in answer to your sweet letter. It sounds full of change, like all of life just now. I hope my hunch is right and that it will be all for your good.

Dorothy arrived from California about 2 weeks ago, and went to the Presbyterian Hospital, where Doctors Auchincloss, Lamb, and etc. are puzzling over her case. She was all set to go under the knife and have whatever was wrong with her cut out, but it isn't that simple. After making all the tests they are unable to find the answer. She will probably leave in a week and see what a little rest will do for her. She wants to take it in the penthouse on 55th Street - Laura and I are holding out for a quieter place in the country.

I've had some movie offers and think I might go West as soon as Dorothy is on the road to recovery.

Above all, keep well, as nothing in life is so important as health. Forgive the brevity of this note.. Will try to do better when I get my invalid settled here and am in the West.

My love, as always,

Lillian

P. S. You ought to have been in "Who's Who" years ago.
