Dear Miss Gilpin:

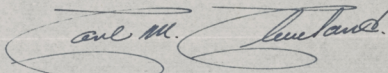

I just wanted to tell you how much we appreciated your cooperation during our recent visit to Wichita. I'm sure it was a material factor in helping to speed the job. Bob, who has been out here subsequently, expressed the same thought even more forceably.

This note has been delayed because it has taken me about two weeks to get caught up on my work since my return from the East. Will you please convey our appreciation to the other people in your department as well?

Incidentally, I've noted in the papers that you have an exhibit at the Henry Galleries on the University campus, and I plan to go over Sunday to see it.

Sincerely

BOEING AIRCRAFT COMPANY
